

## FIRST ANNUAL STATE TOURNAMENT OF WISCONSIN GOLFERS IS ON

First Qualifying Round Was Played on the Mississippi Golf Club's Links in This City Today  
—Thirty-Six Players Entered.

## LOWEST SCORE MADE BY KENOSHA MEN

Janesville Players Show Up Well, Nine Local Players Being Among the Sixteen to Qualify For Championship Play—Players in Fine Form.

On the links of the Mississippi Golf club today the first state tournament of Wisconsin opened most auspiciously. Prominent golfers of the state were present to participate in the contests and some excellent scores were made.

Chester Allen, of Kenosha, and Fred Pettit, also of Kenosha, tied for the handsome cup offered for the lowest score in the qualifying round. The score was 87 and the tie will be played off later.

**Those Who Qualified**

The qualifying round was an eighteen hole contest, the sixteen players making the lowest scores qualifying for the championship contest. The sixteen players who qualified for the championship contest, with their scores, were: H. S. McGiffin, 98; J. Walker Ross, 93; F. J. Baker, 97; O. Sutherland, 94; C. Barnes, 93; W. H. Yule, 90; C. C. Allen, 87; H. H. McKinney, 90; F. Pettit, 87; J. P. Baker, 98; J. DeMoss, 91; H. Vose, 88; Leo Brownell, 97; H. G. Carter, 91; Charles Dunn, 94; F. L. Roach, 95; A. Schaller, 89.

All of the other players will enter the contest for the consolation cup.

**The Players and Their Scores**

The players and their scores in the qualifying round, eighteen hole medal play, follow:

McGiffin	Out	In	Total
J. Walker Ross	48	45	93
John Stevens	50	46	96
F. J. Baker	49	48	97
O. Sutherland	48	46	94
S. D. Tallman	50	43	93
C. Barnes	49	44	93
F. E. Fife	48	49	97
W. H. Yule	47	43	90
C. C. Allen	45	42	87
H. H. McKinney	44	46	90
F. Pettit	44	53	97
G. A. Yule	50	51	101
J. P. Baker	50	48	98
J. DeMoss	47	41	88
C. Acherberg	52	44	96
H. Vose	45	48	93
Leo Brownell	46	45	91
E. G. Carter	46	45	91
Chas. Dunn	48	46	94
F. Jacobs	55	40	95
Chas. Schaller	54	51	105
E. S. Sheldon	54	54	108
Jos. E. G. Ryan	50	50	100
C. C. MacLean	48	51	99
V. Marquisse	49	51	100
W. Laue	46	49	95
W. Laue	45	52	97
Al. Schaller	46	43	89
F. C. Grant	48	50	98
F. H. Jackson	55	53	108
Mark Bostwick	55	57	112
H. R. King	58	54	112
Edward Peterson	53	59	112
Chester Brewer	54	54	108
George Baumann	55	55	110

Of the sixteen who qualified for the championship contest, nine are members of the Mississippi golf club.

**Beginning of the Tournament**

The first annual tournament of the Wisconsin Golf association was started this morning on the Mississippi course when J. Walker Ross of Green Lake and H. S. McGiffin, of the Mississippi club, drove off for the first hole.

They were followed at five minute intervals by nineteen other pairs, making twenty-eight who started out on the qualifying round for the state championship and consolation cups.

The morning was perfect, only a little warm, but warm weather cuts no figure with genuine golfers, and makes them play a trifle better if anything.

**Grounds in Fair Condition**

The extreme dry weather made it difficult for the grounds to be put in perfect shape but they were as good as could be expected under the circumstances and very little complaint was made by outsiders on the condition of the course.

## NEWSPAPER MAN'S HOUSE IS WRECKED

The Result of a Fairy Story About a Frog's Thrilling Experience with Dynamite.

Albany, Mo., July 18.—The home of Hillman, a newspaper correspondent, was wrecked by dynamite last night. Hillman is charged with being the correspondent who wrote the story telling of a frog that ate dynamite, exploded, and killed or seriously injured the three children of George McCurry.

The trouble with the story was that McCurry was single, had no children, dynamite or frog. Last night a quantity of dynamite was placed under the correspondent's house with the intention of giving the writer a taste of higher journalism. Hillman, however, was away from home. The explosion lifted the roof off the house and tore great gaps in the walls. Hillman denies that he wrote the frog story and has appealed to police to find the men who wrecked this house.

## GUILTY OF BIGAMY SO SAYS RUSSELL

Earl Russell Tried in the House of Lords and Sentenced to Three Months' Imprisonment.

London, July 18.—Earl Russell, who was tried in the house of lords, today pleaded guilty to bigamy and was sentenced to three months' imprisonment as a first-class felon.

## NEW GYMNASIUM IS STARTED.

Work on New \$18,000 Structure for Kemper Hall, Kenosha, Begins.

Kenosha, Wis., July 18.—Ground has been broken for the erection of the new gymnasium at Kemper hall. The building will be the most beautiful on the college campus. It will be two stories in height, of stone and brick, and it is expected that the building will be ready for the use of the pupils by the opening of the second term at Christmas time. The new building will cost \$18,000. All of the money has been raised. Z. G. Simmons of this city, making provision for the payment of half the cost of the building, and the remainder of

the money being given by students and friends of the hall. It is probable that the gymnasium will be named for Mr. Simmons.

## TRACKS ARE WARPED BY HEAT

Discovery by a Farmer Averts a Wreck on Big Four in Illinois

Pana, Ill., July 18.—A farmer living four miles west of here, while crossing the Big Four tracks noticed that the intense heat had warped the rails to such an extent that the first train passing that way must have been wrecked. He immediately started down the track and succeeded in stopping the east-bound passenger within a few yards of the damaged track. This discovery brings out a new element of danger to trains during the hot weather.

## TWO KILLED BY LIGHTNING

W. A. Hoyt and Son and Team Killed by Lightning

Spring Valley, Wis., July 18.—W. A. Hoyt, his son Frank, and a team of horses were killed by lightning at Tagalle.

## WILL SELL HOMES TO LABORING MEN

Novel Plan of Kenosha Manufacturers to Attract Factory Men to Their City.

Kenosha, Wis., July 18.—Profit sharing on a novel basis is to be given a trial by twelve of the leading industrial plants in Kenosha, as the managers of the plants have formed a co-operative association for the purpose of bringing laborers here and to make the city a model manufacturing town. The plan is to purchase a large tract of land on which will be built homes for 1,000 laborers. These homes will be sold to the men at the actual cost of building. They will be located near the factory district and fitted with all modern conveniences. In order to encourage matrimony among the workmen, these houses will be sold or rented, and in the latter case the rent paid will apply on the purchase price of the house. To further the plan a large boarding house will be erected to accommodate several hundred workmen at which it will be possible to secure board and rooms at very low rates. One thousand men are now needed for the factories at Kenosha, and this unique plan has been hit upon to draw people to the city.

## SAIL BOAT UPSETS ON DELAVAN LAKE

Camping Party of Four Beloit Ladies Struggle for Their Lives in Deep Water.

Beloit, Wis., July 18.—[Special]—A party of Beloit people who are enjoying camp life at Delavan Lake, had a narrow escape from drowning last evening. They were out in a sail boat when the craft was upset in deep water, but fortunately no one was drowned. The accident occurred about six o'clock.

The occupants of the boat were Mrs. George M. Appleby and daughter, Miss Flossie, wife and daughter of Chief of Police Appleby. Misses Tekla Carleton and Bessie Rouse, all of Beloit.

## DISASTROUS FIRE AT GRAND RAPIDS

Four Story Block Collapses, Debris Catches on Fire, and Great Loss of Property Results.

Grand Rapids, Mich., July 18.—The four story block occupied by Friedman & Co., a wholesale dry-goods firm collapsed this morning and tumbled into the street. The tumbled into the street.

A great mass of debris caught fire and resulted in one of the most disastrous fires in the history of the city. Three adjoining buildings were also destroyed. One of the lieutenants fell from a ladder and will die from his injuries. The loss is placed at half a million dollars.

## DUKE OF CONNAUGHT INSTALLED GRAND MASTER OF MASONIC ORDERS

Impressive Ceremonials Mark the Installation at London of King Edward's Successor.

London, July 18.—Eleven thousand English Freemasons attended yesterday the installation of the Duke of Connaught as Grand Master of the United Grand lodge in succession to Edward VII.

Albert Hall was thronged with members of the Grand Lodge, past and present, and with the masters and wardens of the English lodges. As it was in 1875, when the Prince of Wales was placed on the Masonic throne, the ceremonial was virtually the same and was most solemn and impressive. Grand Lodge officers entirely filled the orchestra and choir seats.

The Duke of Connaught was welcomed by fanfares of trumpets and the national anthem was sung by the enormous gathering. He was installed by the Earl of Amherst, pro-Grand Master, assisted by the Earl of Warwick, Deputy Grand Master. The Duke made an excellent address and referred to the fact that for many years the royal family had been closely associated with Freemasonry—George IV., William IV., Edward VII., the Duke of Kent, the Duke of Cumberland, the Duke of Essex, the Duke of Albany, and the Duke of Clarence having been connected with it. The most impressive moment was when the installation was proclaimed and the vast concourse, with blue regalia and white gloves saluted the new Grand Master. The music throughout the ceremony was splendidly rendered.

Grand Master Hozier of Scotland and the Duke of Abercorn, Grand Master of Ireland, made short addresses, and telegrams of congratulation were read from the colonies.

Lord Milner, the bishop of Calcutta, and the Lord Mayor of London were present and received advancement in the craft and honors were conferred upon Lord Kitchener.

During the Grand Mastership of the King £1,750,000 have been paid into the benevolent fund of the Grand Lodge and for the three Masonic charities.

## MAKE EFFORT TO REOPEN MILLS

Attempt to Be Made at Once at Wellsville, Ohio, Mills.

## STRIKERS ARE FIRM

The Promise of Financial Aid Gives Them Courage to Stand Their Ground.

## MORE MILLS CLOSED

Pittsburg, Pa., July 18.—It is now apparent that the first determined effort of the steel trust to re-open will be made at Wellsville, O. The journey of President Shaffer and other Amalgamated officials to Wellsville lends support to this belief. It is believed that the trust will depend on non-union men to attempt the resumption of the mill. Dewe's mill at McKeesport will attempt resumption next week. Unless settlement comes, stormy times may be expected at Wellsville and McKeesport.

## Aid Promised the Strikers

Pittsburg, July 18.—Closing down the small mill of the American Steel Hoop company at Mingo Junction, preventing a resumption of work at the Wellsville sheet mills, and with the assurance that 2,000,000 members of the American Federation of Labor will contribute 25 cents a week to their support, the striking steel workers are jubilant today.

The Mingo Junction mill employs less than 100 men, but it was non-union, and the officials of the Amalgamated association of Iron, Steel and Tin workers succeeded in closing it. While it is operated by the hoop combine, the mill is really a part of the National Steel company's Mingo plant. The employees of the National company did not come out.

**Aid From Federation of Labor**

President Shaffer this afternoon received a letter from National Secretary Frank Morrison of the Federation of Labor at Washington repudiating reports sent from that city to the effect that the federation will not support the Amalgamated association strike. President Shaffer was requested to call on the federation for financial assistance if necessary.

General Organizer T. H. Flynn of the federation called later at the Amalgamated general offices and gave the information that the two million members of the federation will contribute twenty-five cents a week each to the strike fund. This is \$2,000,000 a month.

Reports came to Pittsburg today via brokers' offices that the strike had been settled. "It can't be settled without our being a party to the settlement," said President Shaffer. "The combine associates may have agreed among themselves to settle, but we have not heard anything from them regarding it. I hope they do settle their side of the trouble and come to us with a fair proposition. We'll be glad to consider it."

**Carnegie Mills Guarded**

Carnegie men have not yet been involved in the strike. Nevertheless for the first time since the suspension began private police with clubs guarded the mills.

Amalgamated officials say that the combines are losing \$210,000 a day. This is figured according to the tonnage of each. It is estimated that by the daily loss of nearly 23,000 boxes of tin plate the American Plate company is losing over \$90,000, while the loss to the canning companies is enormous in addition. Practically no stocks have been carried and the consumption has kept pace with the production for some time.

About 700 tons of the 1,000 tons daily production of the American Sheet Steel company is being lost, and this represents a loss each day to the combine of at least \$50,000. The loss to the gas stove manufacturers is also great, as the mills which

make a specialty of stove iron are closed. This is the heavy season for making stoves.

About 2,000 or 2,500 tons of steel hoops, bands and cotton ties are being lost daily by the American Steel Hoop company, and this represents a daily loss in money of \$70,000.

## UTILIZE BADGER PEAT BED.

Lieutenant Green, of Whitewater, To Get Out New Fuel.

Lieut. J. O. Green, U. S. A., Whitewater, retired, is one of the patentees of a new peat crushing and pressing machine which will utilize large quantities of fuel which are buried in Wisconsin fields. One machine is already working near Ft. Atkinson. Several companies from all parts of the state are planning to introduce the machines and manufacture briquettes to take the place of coal.

Joseph E. P. Ryan, the celebrated golf reporter for the Chicago Inter Ocean, is in the city. He will take part in the Wisconsin State tournament and report it for the Chicago and Milwaukee papers.

## ROCKFORD GIRLS ARE FOR MORALITY

If the Young Men Wish Feminine Smiles, They Must Bid Farewell to Bad Habits.

Rockford, Ill., July 18.—Young men who smoke cigarettes, visit the races and indulge in beer or other intoxicants will not get a fair face from the girls of this town any more. An organization has been formed here for the purpose of socially boycotting all young men who do not behave themselves. The boys who are good on the other hand, will be everywhere welcomed by the women and their daughters.

This powerful organization is designed on national proportions. Its purpose is to keep the members informed as to the moral character of the young men who are bidders for association with young women. The resources of the society will be invincible. No man can hope to escape its sleepless and myriad eyes. Those who have bad habits will not be recognized by the members.

It is claimed that all a young girl needs to bar out a young man is a knowledge that he is really bad. This new organization proposes to give. The movement has the warm support of the clergy of all denominations, and it is bound to spread.

## FORTY MINES IDLE MORE TO SUSPEND

Half of the Coal Miners are Idle, But Strikers are Confident That Majority Will Quit.

Scranton, Pa., July 18.—The result of the stationary fireman's strike summed up this morning is that forty mines are idle and 25,000 men out of work. It is quite certain many more colliers will be forced to suspend today. So far only half of the miners are idle, but the strikers are confident that the majority working will be compelled to quit today.

## CHINESE BLOW UP PIRATE VESSELS

Sixteen Vessels Completely Destroyed by Warship and 450 Pirates Meet Death.

Vancouver, B. C., July 18.—The steamer Empress of India, reports a fleet of sixteen pirate vessels returning from a buccannery expedition in the thickly populated district on the coast north of Shanghai was rammed or blown up and completely destroyed by a Chinese warship three weeks ago. Four hundred and fifty pirates were blown to death or drowned.

## GASOLINE USERS MUST OBEY LAW

Can or Barrel Must Be Painted Vermillion Red and Stenciled "Gasoline," or Owner Suffer

Madison, Wis., July 18.—[Special]—Instructions have been sent by State Oil Inspector Mills to his deputies throughout the state to strictly enforce the new law requiring dealers in and purchasers of gasoline to have the can or barrel in which it is kept painted vermilion red and plainly stenciled Gasoline. Several arrests will probably follow.

## JAPAN WITHDRAWS INDEMNITY DEMAND

From China—This Will Materially Assist in Bringing Conferences of Ministers to Early Close.

Washington, D. C., July 18.—Japan, acting with her usual moderation, has withdrawn her demand for further indemnity from China. This removes what threatened to be a serious obstacle to the progress of the indemnity negotiations at Peking, and will undoubtedly materially assist in bringing the conference of the ministers to an early close.

## BLACKS HANG FOR MURDER

A Trio of Bad Coons Pay Penalty for Murder on the Gallows

Nashville, Tenn., July 18.—Abe Petway, Robt. Battice, Ducer Thompson, all negroes, were hanged here today for murder.

## GIRL SAVED BY A HUMAN TOBOGGAN

Rides Down the Mountain Side Strapped to a Man's Body.

## A THRILLING RIDE

Unconscious Woman and Her Rescuer Make a Descent Never Equaled.

## PROFESSOR IS A HERO

Tacoma, Wash., July 18.—Unconscious, borne over crevasses and glaciers in the arms of companions, and finally, when hope was almost gone, saved by the daring invention and heroic feat of one man who turned himself into a human toboggan, Miss Bethel Rawson of Demoss, Ore., arrived below the snow line on Mount Hood last night after a descent unparalleled in the history of mountain climbing.

Miss Rawson was one of a party of twenty-five who started to make the ascent of Mount Hood yesterday morning. The climb to the crater is a desperate one.

**Girl Becomes Unconscious**

At noon, when the party had reached a point three hundred yards below the crater rock, a blizzard swept over the peak. Exhausted by the climb and overcome by the intense cold Miss Rawson became unconscious.

Calls were sent for assistance from those who had already reached the summit, and the men rushed down and carried Miss Rawson and her companion, Miss Julia Hall, who was still able to walk, to a more sheltered spot where an effort was made to revive the unconscious girl.

**Perilous Descent Too Slow**

Stimulants and chafing failed. It became apparent to all that, unless Miss Rawson was removed speedily from the high altitude and the bitter cold she must perish.

The descent from the summit is a perilous one even to a party bound together by guide lines, with spiked shoes and alpenstocks, and the task of carrying the girl down seemed an almost impossible one.

## Carried by Two Men

The girl was carried by two of the strongest men, while the others drove their alpenstocks deep into the ice and braced themselves to keep the entire party from sliding to destruction. The slope was so treacherous, and precipitous that the journey was filled with almost incredible difficulty and hardship.

Finally the great snow field below the crater was reached. By this time the men had begun to fear that Miss Rawson would never survive the journey and the need of getting her to shelter and warmth became every minute more imperative.

## Construct a Rude Sled

The party halted in despair. Then Professor McElfresh of Corvallis, Ore., suggested that a sled be built of a rough board on which Miss Rawson had been carried for a time and the heavy sacks in which she had been wrapped to prevent her from freezing. The suggestion was adopted at once. Using ropes and twine, handkerchiefs, and cloths from clothes, a rude sled was hastily improvised. Professor McElfresh, in a sitting position, clung to the girl while the others tugged and pulled. The scheme was tried for perhaps half an hour, but it was seen that the girl could not withstand the exposure much longer and survive. The party again halted, exhausted, in the snow. Below them stretched over a mile of unbroken snow, sloping swiftly down to the timber line, where safety lay.

## Offers Himself as Toboggan

Professor McElfresh then came forward with another suggestion. He proposed to make himself a human toboggan, to hold the girl in his arms while he, stretched out and strapped to the plank, would make the attempt to coast down the mountain side.

As there was no other chance, the party accepted the suggestion, dangerous as it was. Professor McElfresh, stretched at full length, was tightly bound to the board, ropes were rigged that he might have a chance to guide his toboggan, then Miss Rawson's unconscious body was strapped tightly down upon his prostrate form, feet to feet and body to body.

## Swift Slide to Safety

The other men poised the toboggan on the edge of the steep, gave it a shove, and the man and girl shot out over the glacier and down through the snow.

The descent was made like a flash.

When the timber line was reached, the professor cutting himself loose, worked over the girl until the rest of the party made the descent.

Then the party carried Miss Rawson to the Mazma camp, where the women took the girl in charge, wrapped her in hot blankets, placed hot water bottles to her feet, and poured stimulants and broth between her lips until consciousness returned. Later Dr. Young of Seattle was summoned and today Miss Rawson is rapidly recovering from her terrible experience.

Mrs. I. H. Carpenter, who has been at the Palmer hospital for an operation, is recovering rapidly. She has left the hospital and is now at the home of City Engineer and Mrs. C. V. Kerch, Jackson street.

## PURE FOOD COMMISSION TO TEST LEGALITY OF THE BUTTERINE LAW

### Suits Are Brought Against the Retailers of Imitation Butter in Elgin, the Dairymen's Stronghold.

Elgin, Ill., July 18.—Dairymen, butterine manufacturers, grocers, farmers, and the users of the imitation article throughout the country, are watching with interest the outcome of five suits to be tried here in Justice McDonald's court. They are the first suits brought by Governor Yates' recently appointed pure food commission to test the legality of the law prohibiting the coloring of butterine to imitate butter. Being tried at Elgin, the dairy center of the United States, the result of the suits will be felt throughout the country, and the butter men, having the advantage of having juries selected from such a district, hope to make an auspicious beginning for a final decision of the Supreme court declaring the law unconstitutional.

The suits are commenced in a justice court so that an appeal may be possible up to the Supreme court. If a criminal action against the violators of the law had been commenced in the county court, the decision of that court would have been final and an appeal impossible.

**Retail Merchants Defendants**

Five retail merchants of Elgin are the defendants in the suits. They are the Kerber Packing company, the August Scheele company, Henry Stumme, G. E. Meierhoff, and Anderson & Johnson. The suit against the Kerber Packing company is the only one which has come to a hearing, the jury standing five for acquittal and one for conviction. It will be retried. The hearing of the other suits will be commenced today.

## SAD TIDINGS FOR LOVERS OF MELONS

Luscious Fruit of the South Land is Scarce, and Prices Are Out of Sight.

The watermelon crop is on strike. Demands have been made for more favorable weather conditions, and these demands not having been met, the crop has decided to quit work. The Texas supply was not one-third its usual size, and most of it has already found its way down the throats of a hungry public. The Georgia crop is almost a total failure, two-thirds of the melons which go to make up the ordinary crop from that state, having decided, as seedlings, that they would not put their heads out from under mother earth this year. The Missouri crop is a doubtful quality. The melons of this state have served the same notice on the growers that was served by the other members of the family in Texas and Georgia. Certain it is that the crop will be small, as compared with other years, and it is quite as certain that it will be late. Dissatisfaction with the weather is the only excuse that the melons have for their mistreatment of the public.

The supply this year will be about one-third the usual size. One car load of melons sold this year for \$365, the highest price ever known. The average price just now is considerably higher than it was last year. Whether there will be any material change when the Missouri melons come into market is a question. The melons grown in this state will naturally be cheaper than those grown in Texas and Georgia for the difference in freight rates is about \$90 a car. The prices now paid at St. Louis are from \$125 to \$300 per car, whereas, under ordinary conditions, prices range from \$125 to \$190.

Advices received from Diehlstadt, Mo., one of the Missouri melon centers, are that the acreage planted this year is only about one-half as large as last season, and that the late cold weather has so affected the fruit that probably not more than one-half the expected crop will materialize. If this proves to be the case the Diehlstadt neighborhood will furnish only one-quarter as many melons as it did last year. Similar news comes from Malden, Blodgett, and Morley, the other points where melons originate.

Not only is the crop small, but it will be late. It is expected that the Missouri melons will be on the market two weeks later than usual. The Georgia melons were late, but the Texas crop, though small, made its appearance at about the usual time. The melons are not up to standard, either. The quality is poor, and many of the melons are dwarfed. All of these things indicate that prices will be high and that watermelons this year will come nearer being luxuries than ever before.

## A PORTABLE HITCHING POST.

Practical New Invention for Making a Horse Stand Still.

As a hitching post is not always convenient and it is somewhat of a bother to carry around a heavy weight in the wagon with which to tether the horse when the driver wishes to leave the animal for a time it is likely that horsemen will appreciate the hitching fetter which has recently been invented. The fetter is a stiff contrivance which is placed back of the horse's leg, fitting it perfectly and strapped tightly in place. The invention takes advantage of the fact that a horse will not move as long as it cannot bend its legs, the fetter being stiff enough to prevent this. The inventors are William Rommel and Thomas R. Owen of Los Angeles, Cal., and they state that it is adapted to afford cavalrymen a perfect means of preventing the horses from escaping without human aid, the claim being made that when an animal is tethered with one of these devices he be-

comes tame even within the presence of danger. Another novelty of the tether is that with the aid of a small padlock the animal can be locked up so that he cannot be stolen without unlocking or destroying the fetter.

**USE VISCOGEN TO ADULTERATE MILK**

New Adulterant Puzzles the State Inspectors—Its Use is Fraudulent.

Viscogen is the latest milk adulterant discovered by the inspectors of the state dairy and food department. For some time the department kept getting samples of milk apparently far above the legal standard, which, on being tested, were found to be far below. The cause was a mystery until, by a shrewd piece of detective work the reason was discovered and a sample of viscogen was obtained.

The stuff is a syrup composed of sugar, lime and water, about the color of water and used chiefly to make the milk appear richer than it really is. When viscogen is placed in milk or cream the lactic acid turns the lime in the fluid into a white, thick substance, which, assimilating with the milk, gives it an appearance and taste of great richness. It is possible through its use to palm off upon customers milk and cream which is far below standard.

While viscogen is not injurious to health its use is fraudulent and will be stopped by the dairy and food department. Viscogen is so little known that the practice among dairymen is very limited.

## SEND IN A REPORT OF DAMAGE TO OATS

Wisconsin Agricultural Experiment Station Asks Information from Farmers.

The Wisconsin Agricultural Experiment station desires to secure from farmers information relative to the damage to oats the present season by smut. Investigations show that in many fields in Dane county the loss through smut the present season will amount to from 10 to 25 per cent. of the total crop. In some cases the farmers were not aware of the presence of smut in their fields until it was shown them. Farmers are apt to be misled because the smutted oat stems do not grow to full height and so the affected heads are not readily seen.

The farmer can determine the percentage loss through smut by counting the oat heads on a given area. To accomplish this, take an ordinary barrel hoop to the oat field and throw it over the standing grain. Then count the number of smutted and normal oat heads within the hoop. Make several counts and average the result. Farmers doing this are requested to send a report of their findings to the undersigned.

The Wisconsin station offers to all, for the asking, a simple and effective method of preventing oat smut. Address R. A. Moore, Agricultural Experiment station, Madison, Wis.

Headaches, dizzy spells, bad blood, rheumatism, indigestion, constipation, absolutely cured if you take Rocky Mountain Tea made by Madison Medicine Co. Smith's pharmacy.

**Reduced Rates to Monona Lake Assembly at Madison via C. M. & St. P. Ry.**

On July 17th and 18th, good until Aug. 3, at \$1.60 for the round trip. July 18th to Aug. 2, good until Aug. 3d, at \$1.60 for the round trip, on certificate plan. On July 27th and Aug. 2nd, at \$1.19 for the round trip. All C. M. & St. P. trains stop right at the grounds.

## BUFFALO BILL IS COMING SOON.

His Wild West Show is Far Better Than it Ever Was.

Mimic warfare and battle scenes have furnished excellent suggestions for actors and artists for years and they have produced many good scenes and magnificent pictures. But all these pale into insignificance when compared with the reproduction of the charge and battle of Tien Tsin, as it is produced at Buffalo Bill's Wild West. The reason is obvious; it is because this thrilling war scene is reproduced by real soldiers who have earned laurels on many hard fought fields, and not mere imitators. These soldiers are a leading feature of the picturesque parade which inaugurates the Wild West's visit here July 23, in which representatives of many different nations and races participate.

No caterers for public amusement combine such an earnest desire to educate the people, both young and old, as do Colonel Cody and his partner, Nate Salisbury, with the Wild West entertainment. The secret of their success is that they never deceive the public with "fake" foreigners. Their Cossacks, Arabs, cowboys, Mexicans, Boer warriors, Canadian mounted men and the American soldiers, who go to make up the small army of men who participate in their pageants, are really and truly what they are represented to be. Colonel Cody heads the list of attractions, and the production is greater than ever before. The great battle scene of Tien Tsin is thrillingly realistic, and the work of the corps forming the United States life saving service is in itself an exhibition worth more than the time and money expended.

## GEN. GEO. RANDALL TO HAVE COMMAND

Military Departments of Alaska and Columbia to Be Consolidated, with Gen. Randall in Command.

Within a few days the war department will issue orders consolidating the military department of Alaska and Columbia under the name of the latter department. Major-General Young, who commands both the department of California and the department of the Columbia, will be relieved of further connection with the Department of the Columbia, and Brigadier-General George W. Randall, formerly of Janesville, now commanding the Department of Alaska, will be assigned to succeed him, with headquarters at Vancouver Barracks. The Department of Alaska was created to meet the temporary emergency caused by the rush of fortune seekers into the Klondike a few years ago. It was formerly a part of the Department of the Columbia. It is discontinued on the recommendation of General Randall. Two companies of the Seventh Infantry, which have been stationed at Alaska, will be ordered to Vancouver Barracks. The change will not be effective until September.

## SHURTLEFF TO HAVE CHARGE

Janesville Caterer Will Preside Over Delavan Lake Dining Hall.

Mr. and Mrs. G. A. Shurtleff of Janesville, were in town Saturday. Mr. Shurtleff is a caterer and will have charge of the dining hall and refreshments at the Assembly next week. He thoroughly understands the business and will give excellent satisfaction.—Delavan Enterprise.

## INCREASE IN PENSION LIST.

In Spite of Many Deaths Among Veterans, the Pensioners Increase. Washington, D. C., July 18.—Despite the dropping of 38,082 names from the pension rolls through the death of that number of pensioners during the fiscal year, there was a net increase of 4,305 names in the rolls by the granting of new pensions and the number carried on the rolls on June 30 was 997,834. There was an increase of 2,273 in the number of pensioners who died during the year as compared with the record of the previous fiscal year. The total expenditure on account of pensions and administration was \$138,531,494, being an increase of \$69,353 over the disbursements of the previous year. The number of claims filed with the pension bureau on account of disabilities incurred in the Spanish-American war aggregated 45,710, of which 7,086 were granted and 7,059 were rejected.

**Cook's Doan's Tablets.** Are successfully used by over 10,000 ladies; are prepared by an old and experienced physician. Ladies ask your druggist for Cook's Doan's Tablets, as they are the only safe and reliable remedy for medicine known. Price, \$1.00. Send 4 cents postage for Free Sample and full particulars. Address: The Cook Company, Room 3, No. 253 Woodward Ave., Detroit, Mich. For Sale in Janesville by R. J. Sarazy.

## BELOIT ACCEPTS FRANCHISE AT LAST

R. W. Hill, One of the Promoters, Not At All Pleased with the Way Things Are Going.

The Beloit, Janesville and Delavan Lake Electric railway has announced its acceptance of the franchise through the city of Beloit by filing a bond in the sum of \$10,000 in accordance with the terms of the franchise. The bond will go before the proper officials of the common council, and be finally passed upon by the council. The representatives of the company say they will no longer worry the council with requests to amend the franchise but will make the best with what they have got. But how they can operate their line with T and part flange rails is something they must figure out. According to the franchise the company must commence the construction of the road within one year and have the road in operation within two years from the time of the passage of the ordinance. They say they will commence the work at once.

R. W. Hill, of Elyria, Ohio, was in the city last night and was not at all pleased with the way things were going in Beloit. They are anxious to begin work in the construction of the line and are determined not to allow Beloit to block them any longer. They have already lost about three months' time on account of Beloit and if they continue to wait until they get what they asked the road would never be built. A large quantity of supplies are being delivered at different points along the line, preparatory to beginning work. Pendleton & Gilkey have delivered about all the posts and poles for which they have the contract. They have delivered 500 poles to the company in this city.

The grading for the new line will commence next week and will probably be done by Hayes Bros., of this city. They are experienced men at this work and their engineer, H. H. Jackson, made the survey of the road and is in position to put the work through in first-class shape.

The promoters assert that the road will be in running order by March 1st, 1902. They have already ordered thirty-five cars for the line. They will be of the latest design with all modern improvements and capable of running at a high rate of speed. The equipment of the road will be first-class in every particular.

**Excursion Rates to Chicago.** Via the North-Western Line. Excursion tickets will be sold at reduced rates for round trip July 23, 24 and 25, on account of B. Y. P. U. convention. For limits of tickets, etc., apply to agents Chicago & North-Western R'y.

## NEW TRAFFIC ARRANGEMENT

The C. M. & St. P. Ry. Company Grants Use of Its Tracks. The Chicago, Milwaukee & St. Paul road has entered into a traffic arrangement with the Burlington, Cedar Rapids & Northern whereby the latter is granted the right to run its trains over the St. Paul tracks from a point seven miles North of Fairbault to Rosemount, and from Newport into St. Paul. The new piece of road between Rosemount and Newport is nearly completed and will be opened within two weeks. It will be used by the Rock Island in getting into St. Paul.

## Scrofula

This root of many evils—Glandular tumors, abscesses, pimples and other cutaneous eruptions, sore ears, inflamed eyelids, rickets, dyspepsia, catarrh, readiness to catch cold and inability to get rid of it easily, paleness, nervousness and other ailments including the consumptive tendency—Can be completely and permanently removed, no matter how young or old the sufferer.

Hood's Sarsaparilla was given the daughter of Silas Vernoy, Wauwating, N. Y., who had broken out with scrofula sores all over her face and head. The first bottle helped her and when she had taken six the sores were all healed and her face was smooth. He writes that she has never shown any sign of the scrofula returning.

## Hood's Sarsaparilla

Promises to cure and keeps the promise. Ask your druggist for it today and accept no substitute.

## LATE TELEGRAPHIC NEWS

## THE FOSBURG TRIAL OPENS

Accused Pleads Not Guilty to Slaying Sister.

IT IS A VERY STRANGE CASE.

Defendant and Father Compose Contracting Firm—Family Says Burglars Killed Girl in Midnight Battle—Police Disbelieve the Story.

Pittsfield, Mass., July 18.—Robert Stewart Fosburg was arraigned in the Berkshire superior court at 12:30 p. m. to plead to the indictment charging him with manslaughter in shooting his sister, Miss May Fosburg, on Aug. 20 last. He came into the courtroom accompanied by his counsel, H. C. Joyner, and pleaded not guilty in a clear voice. The proceedings lasted but ten minutes. None of Fosburg's relatives was present. S. N. Taylor, a lawyer from St. Louis who is an intimate friend of the Fosburg family and who took a prominent part several months ago in looking up the movements of the wire gang in connection with the Fosburg case, arrived. He will take no active part in the defense. The case will come up for trial at 9 o'clock a. m. to-morrow.

ROBERT S. FOSBURG.

pose the contracting firm of Robert L. Fosburg & Co. They have built many factories and installed the plants in and out of New England. They came here a year and a half ago to construct the Stanley Electric Company's new works. Mrs. Fosburg, the mother, had been visiting relatives in St. Louis, and arrived home Saturday evening, Aug. 19, 1900. The house was darkened before midnight and the members of the Fosburg family and their guest, Miss Sheldon, retired. Then, a little more than an hour later, there was a terrible outcry. The startled neighbors heard frantic calls for assistance. A struggle was going on in the Fosburg house. Two pistol shots were heard, followed by screams of women and the hoarse shouts of men. From an open second-story window Robert L. Fosburg appeared: "Will no one come to us? We are being murdered by burglars." Those who rushed in found May Fosburg, shot through the head, lying dead on the floor of her bedroom. Her father had been so beaten that weeks elapsed before he recovered from the blows. May's mother, too, had been badly hurt, but not so seriously as Mr. Fosburg. Robert Stewart Fosburg had received one blow at the base of the skull that had deprived him of his senses. A tale was told of burglars, three in number, who, being discovered and attacked by Robert L. Fosburg, has beaten and tried to kill him.

Certain circumstances known to Chief of Police Nicholson first led him

lars killed May Fosburg. The pillow slip that had been found in the road belonged to the Fosburgs. The slits that had been made for the eyes would ill serve that purpose, at the best. If slightly disarranged the pillow slip would completely blind the wearer and might be used to choke him. In the unoccupied room through which the burglars are said to have twice passed a gold watch and some other jewelry, not of great value, had been left untouched. The only article missing was a revolver belonging to Robert Stewart Fosburg. Measurements and angles were taken and by these Chief Nicholson convinced himself that the two shots were not fired as the members of the Fosburg family had described. Dr. Schofield and Medical Examiner Padock asserted that the bullet which caused the death of May Fosburg had been fired from a revolver held almost against her breast. After this the police found what they considered evidence of a quarrel in the Fosburg family and the young man's arrest followed.

## SWIFT CRUISERS PLANNED.

Committee Has Ambitions to Build Twenty-two-Knot War Vessels.

Washington, July 18.—A powerful warship which can steam 10,000 miles without recaling at a speed of 22 knots is the kind of an armored cruiser the Naval Board of Construction now has under consideration. Such a vessel could steam from a port on the North Atlantic to Manila without stopping at any South American or North American port. She could cruise for a long period without putting into port and her great speed would make her safe if she fell in with a squadron of wandering battleships or cruisers. These cruisers, two in number, will be of 14,000 tons burden and will have a coal capacity of 2,000 tons. The armored cruiser Brooklyn has a capacity of 1,650 tons and the New York, also armored, a capacity of 1,150 tons. The speed of twenty-two knots is one knot faster than the contract speed of the Brooklyn and the New York. In tonnage and general design these vessels will be practically similar to the armored cruisers California and West Virginia, now under construction.

The board has decided that the two ships shall have either eight-inch or seven-inch rifles in their main batteries, but has not chosen between the two calibers. It has been practically determined, however, that if eight-inch guns are selected they will be mounted in turrets, but there will be no turrets for seven-inch guns.

## HOLD-UP MEN SHOOT AGENT

W. R. Miller Wounded in Battle with Thugs.

ONE BANDIT IS A YOUTH.

A Ticket Agent of the Metropolitan Elevated Railroad in Chicago Has a Rough Experience with Determined Desperadoes—Drives Them Off.

Chicago, July 18.—An attempt was made to rob the ticket office of the Hoyle avenue station of the Garfield Park division of the Metropolitan Elevated Railroad company early this morning, but Agent W. R. Miller, who had been through a previous experience with robbers, was armed and defended himself, even after he had been shot and painfully wounded. At 12:30 o'clock two young men and a boy approached the ticket station. The boy, who was about 18 years old, was left on the outside as a guard. The two young men entered the station, asked the time, and then gave the agent 10 cents for their fares. Miller reached for his rope to ring up the fares, and as he did so the two men drew revolvers. One of the men was standing directly in front of the window, and the second man was behind his partner. "Shove that money through here," the robber said. Agent Miller made a pretense of reaching for a roll of bills, but he had a revolver hidden near at hand. The robber reached his unoccupied hand under the window and was expecting to feel a roll of bills placed in it when suddenly a shot whizzed by his head. He sprang back from the window and another shot passed him. A third shot had been fired before the robbers had recovered from their surprise. Both men emptied their revolvers at the agent, but only one shot took effect. The bullet struck Miller in the left arm below the shoulder. When their revolvers had been emptied the robbers ran to the rear door and attempted to leave the station, but it was locked. They then ran back to the door by which they had entered, but there was no handle on the door and they were forced to use their fingers to open it. This gave the agent a moment's time and he attempted to reload his revolver. He had his weapon in readiness for a second attack when the men got the door open and ran. Miller followed them and fired two shots at them. The boy had taken alarm when the first shots were fired and he disappeared. Miller then re-entered the station, counted \$63, and then telephoned to Special Officer Grandpre and the police of the West Lake street station. Residents of the neighborhood had been awakened by the noise of the shooting and they gathered around the station. One of the shots, it was found, had passed through a window of the station and through a window in the flat of Mrs. N. Martin, No. 256 Hoyle avenue. When the special officer of the Metropolitan Railroad company arrived he helped bind the wound of Agent Miller and later the agent was removed to the Presbyterian hospital.

## Cloudburst at Winona Lake.

Warsaw, Ind., July 18.—The several thousand persons now living at Winona Park were thrown into a panic last evening on account of a cloudburst. The water fell in torrents and the grounds were submerged. The dining-room in one of the lower hotels was two feet under water. Basements and cottages situated near the lake were flooded. The lake was high. Many of the Indiana biological station students, in camp on Chicago Hill, were homeless. The park was filled with limbs from trees and wrecked awnings.

## COKE

## DANDRUFF CURE

Praised by the Citizens of Janesville and Vicinity

What man or woman can doubt the virtue in Coke Dandruff cure after the evidence that has been produced from day to day in columns of this paper for the past two weeks?

The great success attained by COKE DANDRUFF CURE comes from the fact that those whom it has benefited tell their friends.

Read What Some of the Leading Dealers of Janesville Say about Coke Dandruff Cure:

A Whole City Delighted with the Results of a Test of Coke Dandruff Cure.

The sales of Coke Dandruff Cure have more than doubled in the past week. Our customers are delighted with the results of this great preparation since the Free sample test made at our store, to prove to the people of Janesville its great worth.

## Kodol

Digests what you Eat

## Dyspepsia Cure

Dyspeptics cannot regain health and strength by living upon half rations. They must eat plenty of good food and digest it. To enable them to do this they should use something that will help the stomach do its work. KODOL DYSPEPSIA CURE is such a preparation. It digests what you eat and supplies the substances needed to build up the worn out digestive organs.

Prof. J. Ivison, of Lonaconing, Md., says: "For thirteen years I suffered agony from dyspepsia and neuralgia of the stomach. I tried almost everything and doctors drugged me nearly to death with morphine, but temporary relief was all I could obtain till I was advised to use KODOL DYSPEPSIA CURE. The first dose gave me relief. I bought my first bottle in March, 1900, and I have not had a single pain since. It has completely cured me. I cannot endorse it too highly."

It can't help but do you good

Prepared by E. C. DeWitt & Co., Chicago. The \$1. bottle contains 2 1/2 times the 50c. size.

The favorite household remedy for coughs, colds, croup, bronchitis, grippe, throat and lung troubles is **ONE MINUTE Cough Cure**. It cures quickly. M'CUE & BUSS.

## POND'S EXTRACT

There is only ONE POND'S EXTRACT, and everybody knows its purity, strength and great medicinal value. Don't take the weak, watery Witch Hazel preparations represented to be "the same as" POND'S EXTRACT. They generally contain "wood alcohol," which irritates the skin, and, taken internally, is a deadly poison. Get genuine POND'S EXTRACT, sold ONLY in SEALED bottles, in BUFF wrappers.

## WISCONSIN WEATHER FORECAST

Partly cloudy tonight and Friday, possibly thunder storms.

When the Beloit common council was holding up the electric railway franchise Alderman McLean characterized the proceedings as "kid work."

Now that the Janesville council is holding up the St. Paul railway company's projected improvements, Mr. McLean's ideas as to "kid work" have evidently undergone a material change, for he does not put a stop to the nagging, although he is, reputed to "own six votes" besides his own. The Janesville council has no more ground for "kid work" than the Beloit council had. Either Alderman McLean did not know what he was talking about when he denounced the Beloit proceedings as "kid work," or "kid work" in Janesville isn't "kid work."

The Milwaukee journalists who all but Uncle Ike's Stephenson, when the latter was a candidate for the senate two years ago, are now very much incensed because other people speak of Uncle Ike's bar!

These journalists, however, differ from the leopard in that they cannot readily change their spots, and if some paper should reproduce the articles they wrote two years ago, the journalists would throw a convulsion fit, with all modern improvements. They are a cheap lot, those journalists, and their love for Stephenson will cease directly the bar is closed. They are for Stephenson because Stephenson is a halfbreed. Two years ago Stephenson was a stalwart. Then, of course, the Marinette man's bar! was something to be abhorred. Now that Uncle Ike has gone over to the half breeds, however, the famous bar! is something for half breeds to pat and caress. "Was ever thus" with the "I am nobler than thou" fellows.

"To win by gentleness, and not by anger, to win by respect, and not by reviling—these are the instruments by which great political accomplishments are brought to pass in our republic," said Senator Hoar in a recent speech. "That is the secret of the great success and of the great popularity of President McKinley. No man, friend or foe, differing from him or agreeing with him, has ever been brought into personal contact with him without not only loving him, but also respecting him."

"I do not know what the secret is. This old fashion of hatred is, however, I believe, passing away. In old days men never seemed to understand that one could differ from them in matters theological or matters political, unless they were lying about it."

"Yet, there are still in politics a very few gentlemen, who, it seems to me, are the lineal and spiritual descendants of Archbishop Land of Torquemada; or, at any rate, of Sam Parris of Salem, who got up the witchcraft movement—men who, if they cannot roast the President of the United States at the stake, or excommunicate him from the church, or drive him from the face of men as a political outcast—at least they can, on some public occasion, insult him."

"I am very happy that it has been shown that the feeling does not exist to any considerable extent in this dear old commonwealth of Massachusetts of ours."

Free Silver. Towne, of Minnesota, now a Texas oil plutocrat, says D. B. Hill will be the next democratic presidential candidate; that Bryan will head an also ran bolters' ticket; that free silver is a dead issue because there is all the money necessary in the country; and that, by inference, there is no doubt about republican success. Towne is evidently getting rid of his "bats."

There was a gallant grafter many who had a lot of slot machines; He moved them into various resorts, And moved them out again, And

when they were in they were in, And when they were out they were out; But, when they were half way in and out, They were neither out nor in.

Lieutenant Governor Jesse Stone will represent Wisconsin at the Buffalo Exposition, Governor LaFollette being too ill to attend. That Governor LaFollette cannot participate in the pleasures of the occasion will be generally regretted, but in Governor Stone he has an excellent representative, and the state can well feel proud of the man who will appear for it on "Wisconsin Day."

The Ohio democrats do not get together. The Bryan men have issued their call for a bolters' convention, saying that "if the platform of 1896 and 1900 be repudiated, there is little else of importance to fight for." The democrats are having a hard time of it. They cannot find a single good principle that the republican party doesn't represent.

Why should people want new depots, anyway? The nimble nickel can gambol gaily through the shimmering slot, and that ought to be enough. The trouble with the people is, they want too many things. Depots are unnecessary if we have enough slot machines.

If a street is to be cut up by railway tracks, anyway, what difference does six inches, more or less, make, providing that the block is regraded and macadamized at the expense of the track owners? Or, if a hair cannot be split lengthwise, how many times should it be cut crosswise?

"Dave Hill for president, eh? Well, I know another Dave who should have something almost as good—governorship of Wisconsin, for instance"—The Hon. Dave Rose.

A new industry wants to come to Janesville, but the interested parties are keeping the matter dark. They are afraid the common council will find out about it, and legislate the concern off the face of the earth.

The Beloit common council and the electric railway company have reached an understanding. The Janesville council, however, continues to nag the C. M. & St. P. company, and no settlement is in sight.

Why not put the slot machines on wheels? It would be easier then to move them in and out.

**WHY JAMESBY THREW A FIT.**  
"I am looking for a business opening," said the stranger to the merchant. "I want to put up two buildings to cost about \$50,000. Would the council let me run a sidetrack to them?"

"Certainly," said the business man, "but to be sure, we'll go and see alderman Jamesby."

"Sure, Mike," said the alderman. "We'll make it an object for you to invest your money here. I'll put in an ordinance at the next council meeting. What are the buildings to be used for?"

"As passenger and freight depots," said the stranger. "I—"

But the alderman heard no more. The purplish color had again overspread his face, and he had fainted.

"Strange man," said the stranger. "Does he throw that kind of often?"

"Every time any one speaks the word 'depot,'" said the business man. "He'll never let you build \$50,000 worth of depots here, for he's the boss, the whole thing, the mayor and the common council all rolled into one. He's the king pin, the dictator, the general manager, the—"

But, for the second time, a stranger had tucked his check book into his inside pocket, and fled.

And may be he'll come back, and may be he won't.

We shall see what we shall see.

## DELEGATION DID NOT COME

Evansville Ladies Did Not Attend the Clara Barton Garrison Meeting. Clara Barton Garrison, No. 6, expected to entertain a delegation of members from the Evansville Garrison last night. The visitors did not put in an appearance, however, and there not being a sufficient number present to fill the chairs, no business was transacted and the garrison opened and closed without order.

Going to the "Pan." A number of early visitors to the Pan-American Exposition at Buffalo have returned. Everything is now complete and the show is reported to be finer (if not so large) than the World's Fair. A great many have gone via Milwaukee and the new route, the Pere Marquette lake and rail to Detroit. A card of inquiry addressed to H. W. Jameson, T. P. A., Milwaukee, will bring you any information you wish concerning rates, time, etc.

## SAYING OF OLDEN TIME COMES TRUE

AND ALL SIGNS CONTINUE TO FAIL IN DRY WEATHER.

Prayers of Devoted People, Predictions of Weather Prophets, Sunday School Picnics and State Golf Tournaments Prove 'Powerless to Bring Rain.

Are the prayers of earnest Christians, the change of the moon, the predictions of weather prophets based on floating mackerel clouds, the Union Sunday School picnic, yea, even the state golf tournament powerless to bring rain to Janesville?

It would seem even so for while aggravating reports of refreshing showers come in from all the surrounding country, this city had to be satisfied with promises which did not make good and a few scattering drops of water. The great, heavy clouds that rolled up yesterday and the few vivid flashes of lightning looked beautiful to the eyes of a populace which has thirsted for rain to these many weeks, while the muttering thunder was a most musical sound.

But that was the best the thirsting populace got. No, not the best, either for while the dust is as heavy as ever the rains which passed all around the city sent a cool breath of air to suffering humanity in Janesville. Last night sleep was enjoyed for the first time in several days by people to whom the last few nights have meant only restlessness and discomfort.

When the congregation of St. Mary's church held a special mass for rain Monday morning, devout people tried hard to have a believing faith that rain would come speedily. Other people hoped much from the change of moon and weather prophets, who had despairingly seen sign after sign fail, went into raptures of joy when the sky, on Tuesday evening was covered with mackerel clouds. They surely meant rain, gladsomely the prophets proclaimed, but the rain failed to materialize.

The Sunday School picnic also proved powerless. For years a Baptist Sunday School picnic has meant an accompanying deluge until the rule of a rainy picnic day for the Baptist people has called into existence a standing joke on the fondness of the denomination for water. Last summer the Presbyterian Sunday school, after several successive rainy picnic days, was forced to hold its annual picnic in the church basement. Other denominations have had similar experiences and it was thought that the combination of the five Sunday schools ought to bring a veritable flood and so it would under ordinary occasions.

Never before has a big event on the golf links failed to bring a down pour and it is past understanding how such an occasion as the state meet, the first ever held on the Mississippi club's links, can be attended by fine weather. But the weather clerk has evidently stubbornly made up his mind not to be tempted from the dryness of his way by anything, no matter how alluring.

## LIGHTNING KILLS SEVEN MEN.

Two Hay Harvesters and Others Slain by Electric Bolts.

Arcola, Ill., July 18.—Lightning struck a crowd of hay harvesters working near here, killing two instantly and fatally injuring one. The dead are Charles Swisher and Robert Clark. The injured man is Charles Scott.

Quincy, Ill., July 18.—Edward Hoener, a farmer living south of Quincy, was killed by lightning. He was in a field driving a wagon when a storm came up. The lightning killed him and the two horses.

Tallahassee, Fla., July 18.—During a heavy electric storm last night four persons were killed and one injured by lightning near this city.

Killed by Lightning Bolt.

Mount Vernon, O., July 18.—Martin Harding, a boy, was struck by lightning while working in a hay field near Gambler. A hole the size of a walnut was torn in the back of his head and his clothing and shoes were rent from his body.

## THIRTY THOUSAND DELEGATES.

All in San Francisco for Epworth League Convention.

San Francisco, Cal., July 18.—The first Epworth League special train arrived last night and when the fifth international convention opened today 30,000 delegates were in attendance, 18,000 of these from points east of the Rocky mountains. Since last Monday the Southern Pacific has handled, via Ogden, thirty-five special trains, in addition to the regular traffic, a large majority of them arriving last night and today, many being scheduled only thirty minutes apart.

Helms Held by the Police.

Goshen, Ind., July 18.—Irena Caning, 16 years old, from Galveston, Tex., claiming to be an heiress to \$300,000, is in the custody of the sheriff, awaiting instructions from her guardian, the Rev. George Tarbox of Savannah, Ga. She claims to have been

under the hypnotic influence of a doctor, who abducted her from a boarding school at Holyoke, Mass. She got off a train at South Bend to escape the man, who was following her. She is attractive in appearance and has traveled much. The police are investigating.

## All But Two Lost.

Halifax, N. S., July 18.—A bottle picked up in the sea near here today contains a message stating that the steamer Louisiana had been wrecked 300 miles east of Nova Scotia. Only two persons have been saved, it was stated, in a small boat. There is only one steamer of that name that might have been near the scene of the alleged wreck. That is the British steamer Louisiana, Captain Baker, which sailed for the United Kingdom on July 8 from Quebec.

## WANT COLUMN

Three Lines, Three Times for 25 Cents

WANTED—Housekeeper in small family in the country. Good wages to right party. Address care Box 803, P. O.

## ASSEMBLY OPENS WITH 400 CAMPERS

AT MONONA LAKE, MADISON, TO-NIGHT—TALENT GOOD.

Lieutenant Hobson, of Merrimac fame, will deliver the closing lecture of the season on August 2—Rabbi Emil G. Hirsch to lecture tomorrow afternoon.

Madison, Wis., July 18.—[Special]—There are already about 400 campers on the Monona Lake Assembly grounds and by the time that the encampment is fully started there will probably be 700 permanent residents there, in addition to the transients who go over from the city by steamer. The assembly opens this evening, and will have the longest session in its history, continuing sixteen days, an addition of five.

Lieutenant Hobson of Merrimac fame is to be one of the attractions having been engaged for the last day, Aug. 2. Secretary Moseley received a telegram from him yesterday that he would accept.

Rabbi Emil G. Hirsch, who lectures tomorrow afternoon, will speak on "Facts and Fictions Concerning the Jews." He will arrive on Friday morning from Oconomowoc, where he is spending the summer.

About \$4,500 has been spent on the program of lectures, entertainers, etc., and Secretary Moseley says it will be the best in the country. The "big lights" include ex-Minister to China Charles R. Denby, Senator Benjamin R. Tillman of South Carolina, "Sam" Jones, Rev. T. DeWitt Talmage, Thos. Dixon, Jr., of Philadelphia, Rabbi Hirsch, Rev. Robert Stuart MacArthur of New York, all of whom, with several more, are down for lectures and addresses. There is a popular entertainment for each evening, these including a liquid air exhibition, Hungarian Gypsy band, Edison Projectoscope, Boston Carnival and Concert company, and others.

## AGENT TORTURED, NEARLY LYNCHED

Harry E. Adams, an Insurance Agent, Attacked by a Party of Clinton Junction Business Men.

Beloit, Wis., July 18.—Clinton Junction has something of a sensation and seven of her leading business men have a law suit on their hands, growing out of the rough treatment administered to Harry E. Adams, an insurance agent, who has been working at Beloit and Clinton. It is alleged that Adams took some money belonging to a fellow boarder at Clinton, and the victim, who gives his name as F. F. Mills, after "thumping" Adams and being unable to secure the lost money proposed to torture the man a little. This is Mills' story:

"With six well-known business men I drove to a farm a mile and a half west of Clinton, just before midnight and found Adams sitting in a hammock with a young lady. I stepped up to him with a rope in one hand and a gun in the other and demanded my money. Adams begged for time, but I roped him around the neck and took him to the wagon, putting him in. The others formed an escort on all sides of the rig.

"After driving a short distance Adams pushed me out and jumped, brushing two of the escort aside. I circled around the wagon and roped him again. Then we tied him to the back of the wagon, making him walk or run according to the speed of the horses. Again Adams got away but halted when I scared him with two shots. Then we took him to a tree and threw a rope, one end of which was around his neck over a limb. Then he begged to do some writing before he died and we let him. We wound up by giving him a good beating, then let him go. This morning Adams swore out warrants for the seven of us. It was agreed that I should be responsible for the whole affair and that the rest should see me through. Before the warrant was served I left Clinton and walked to Beloit. When the money is raised for the bail I am to be notified."

It is learned that Adams today caused warrants to be issued for the arrest of the men charging him with disorderly conduct.

## ITALIANS GO HOME, PAYING THEIR WAY

Their Threats To Tear Up the Railroad Company's Tracks Proved To Be Only A Bluff.

The trouble brought about by the Italian laborers in the employ of the Chicago, Milwaukee & St. Paul Railway company, is at an end. The dagos have left town, and they paid their own transportation, although they said they would not leave until they had threatened to tear up the company tracks if transportation was not furnished them, was very much of a bluff. Their places will be supplied by new men.

## SPOON FOR THOMAS MULLIGAN

Given to Him For Exceptionally Good Work in U. S. History.

Thomas Mulligan has been presented with a handsome silver spoon by the Daughters of the American Revolution as recognition of the excellent work done by him in United States History last year. Master Mulligan was one of the contestants for the medal offered by the D. A. R. and stood second in the competitive examination by which the winner of the medal, Miss Ruth Fifield, was determined.

A new fender is being given a trial on the street cars today.

Excursion to Milwaukee by C. & N. W. Ry. Sunday July 21st. \$1.25 round trip. Train leaves Janesville 7:45 a. m. Returning, leaves Milwaukee 9 p. m.

Excursion to Milwaukee by C. & N. W. Ry. Sunday July 21st. \$1.25 round trip. Train leaves Janesville 7:45 a. m. Returning, leaves Milwaukee 9 p. m.

Ringling Bros.' great circus represents an invested capital of \$3,700,000—more than twice the amount invested in all the other circuses in the United States.

Kent & Crane have erected above the door of their South River street store a raised gold lettered sign that is not only attractive and handsome but durable.

Tomorrow we offer you Hamburg embroideries at one-half the regular price. All 5 cent embroideries go at 2 1/2 cents per yard. All other grades in proportion. Bort, Bailey & Co.

The greatest menage rider in the world is Mme. Noble and she is with Ringling Brothers' circus which will exhibit in this city on Tuesday, July 30th.

From the crowds that daily visit the store of Bort, Bailey & Co. it is quite evident that this enterprising firm are running sales that please the masses both as to assortment and price.

Ringling Brothers employ over a thousand men, women and children. To feed this great company of people requires a daily average of 900 pounds of bread, 1,000 pounds of meat, 120 gallons of coffee, and everything else in proportion. These supplies, as well as ten tons of hay, 300 bushels of oats, and twenty-five bushels of corn for the horses, have to be secured daily in the city where the show is exhibiting.

The Owen Goss Moving company of Milwaukee, have secured the contract for moving the two residences on the public library site opposite the Court House park to the lots they will occupy in the near future. The buildings are owned by J. M. Bostwick and Dr. E. H. Dudley. Work will commence next week.

Unusual Excitement in the Cut-Off City by Frank Young's Team.

Evansville, Wis., July 18.—Frank Young's team, which he drives on the telephone wagon, made a run Wednesday which called forth a crowd numbering hundreds. This is not the first time this team has caused excitement to prevail on the usually quiet streets of Evansville, but the fact that it ran into another carriage and threw its occupants to the ground added to the stir. The team became frightened on the main street and got away from the driver and made an unprecedented record up the principal business street.

Near the bank the team broke away from the wagon and ran into a carriage occupied by Miss Anna Moe, who resides in the town of Magnolia. Miss Moe was thrown from the carriage and picked up badly frightened. On examination her injuries were found to be but slight. The runaway was a very fortunate one after all.

Unusual Excitement in the Cut-Off City by Frank Young's Team.

Evansville, Wis., July 18.—Frank Young's team, which he drives on the telephone wagon, made a run Wednesday which called forth a crowd numbering hundreds. This is not the first time this team has caused excitement to prevail on the usually quiet streets of Evansville, but the fact that it ran into another carriage and threw its occupants to the ground added to the stir. The team became frightened on the main street and got away from the driver and made an unprecedented record up the principal business street.

Near the bank the team broke away from the wagon and ran into a carriage occupied by Miss Anna Moe, who resides in the town of Magnolia. Miss Moe was thrown from the carriage and picked up badly frightened. On examination her injuries were found to be but slight. The runaway was a very fortunate one after all.

## HELD JOINT PICNIC CRYSTAL SPRINGS

Ancient Order United Workmen and Degree of Honor Spend the Day at Up-River Resort.

A joint picnic given under the auspices of Olive Branch lodge No. 36, Ancient Order of United Workmen and Laurel Lodge No. 2, Degree of Honor, was the attraction at Crystal Springs, park today. Two trips were made by the steamer Columbia this morning and at regular intervals during the day.

At two o'clock this afternoon the Imperial band followed by a carriage in which were seated the speakers of the day, proceeded to the boat landing followed by about thirty members of the United Workmen on foot. On arriving at the picnic grounds the day was delightfully spent by the large crowd in attendance.

Speeches were scheduled to be made by Grand Master Charles O. Ellerich, of Oshkosh, Mayor Victor P. Richardson, Grand Recorder F. M. Givens, of Oshkosh, and Past Grand Master J. M. Thayer, of this city.

A program of amusements consisted of bicycle races, foot races, sack races, tug races, tug of war, fat men's race, swimming race, egg race for ladies, adding contest for ladies, etc. Prizes will be given to winners also to the oldest couple on the grounds and to the handsomest baby under five years of age. The Imperial band furnished their accustomed spirited music and the picnic will come to a close tonight with a dance for which Smith's orchestra will play.

## CALLED UP HIGHER, MRS. G. W. TRACY

Mother of Mrs. H. V. Allen Dies at Her Home in Omaha—Buried Here Tomorrow.

After a painful illness of two weeks' duration of cerebral spinal meningitis, Mrs. Anna Brundage-Tracy, wife of G. W. Tracy, closed her eyes in death at her home in Omaha, Neb. Deceased was the mother of Mrs. H. V. Allen of this city. Mrs. Allen was first notified of her mother's illness by a telegram received on Saturday and she left for Omaha on Sunday and was present at her mother's bedside when the final summons came at 3:30 o'clock yesterday afternoon.

Mrs. Tracy was about fifty-five years of age and besides a devoted husband, she leaves to mourn her departure from this life an only child, Mrs. H. V. Allen, of this city.

The remains will arrive in this city tomorrow morning over the Chicago, Milwaukee & St. Paul railway, accompanied by the bereaved husband and daughter and will be taken to the home of Mrs. Allen, No. 10 Milwaukee avenue, where funeral services will be conducted by the Rev. J. M. Richey, rector of Trinity Episcopal church. The interment will be in Oak Hill cemetery.

Mrs. Tracy was spoken of as a most estimable lady, possessing many good qualities and Mrs. Allen's many friends will sympathize with her in her great sorrow.

Johnny Lulla's Funeral

Funeral services for little Johnny Lulla, the infant son of Mr. and Mrs. Frank Lulla, were held from the home, 11 Wall street this afternoon at 2:30 o'clock. The interment took place in Mount Olivet cemetery.

## HOT RUN BY PATROL TO ATHLETIC PARK

Fence That Surrounds Ball Park Was On Fire and Still Alarm Was Turned In.

Fire at two o'clock this afternoon did slight damage to the fence that surrounds Athletic park in the Spring Brook addition. A still alarm was sent in from the Heddies leaf tobacco warehouse which adjoins the park. The fire patrol made the run but the services of the fire police were not needed as the flames were extinguished by boys. The damage was nominal.

Dainty With Ice Cream

Larchmont biscuit. Minuet wafers. Vienna dessert wafers. Sponge jelly drops. Lemon gems. Egg biscuit. Athena and Ramona. Almond macaroons. Sponge lady fingers. Afternoon teas. Grubb.

Ran Over by a Train.

Goshen, Ind., July 18.—Benjamin Landen, aged about sixty years, was struck and instantly killed at 5 o'clock p. m. just south of Milford Junction by a northbound Big Four passenger train.

## NEWS OF A PERSONAL NATURE

Miss Louise Merrill is entertaining her friend, Miss Olive Corneau, of Geneva Lake.

L. B. Smith of Madison, is in the city.

G. R. McManus, wife and daughter of Edgerton were in the city today.

Mrs. F. L. Smith and daughter Isabelle, have gone to Buffalo for an extended visit.

J. G. DeLong of Chicago, will arrive in the city this evening for a visit with friends.

F. S. Winslow is in Dakota on business.

H. H. Clough and R. W. Hill, of Elyria, Ohio, promoters of the inter-urban electric line, are in town.

Miss Kathryn Ford, of Cooksville, spent the past week, the guest of her friend, Miss Mary Fox, 154 Cherry street.

Mrs. Arthur W. Wheelock and daughter of Rockford, Ill., are visiting her parents, Mr. and Mrs. Frank Wood, and friends in this city. They are now the guests of Mrs. D. K. Jeffris.

D. P. Marsh, of Omaha, is in the city transacting business as traveling agent for the Janesville Machine company.

## AN OPERATOR SKIPS Until His First Pay Day Came, Then Ducked.

Michael Henry was employed by the Chicago & Northwestern railway company as night telegraph operator at the passenger station. Henry is what is known in telegraph parlance as a "tramp operator." He held his job until the first pay day came and last night he left the railroad business to care for himself and walked out not caring a whit about the trains that were coming and going. The office was found deserted and a student was put in charge until Operator R. D. Stone arrived and took charge of the telegraph office.

It was a vile piece of work for an operator in a railroad office to do, but Henry seemed equal to the occasion. It is claimed that Henry took the pay for a message and sent it collect, keeping the money.

## A LUCKY WAITRESS TO WED MILLIONS

Millionaire Arizona Ranch Owner Is Smitten with a Lunch Counter Waitress and Will Marry Her.

Danville, Ill., July 18.—While passing through Danville William Richmond, a millionaire ranch owner of Tombstone, Arizona, stopped at the Junction restaurant to buy a sandwich, saw and fell in love with Lizzie Shultz, a Danville girl, who had charge of the lunch counter. He asked the young woman for her hand. She accepted and after the marriage which takes place at her home on July 20, they will go to Austin to spend their honeymoon. Mr. Richmond has mining interests there. As an evidence of his sincerity Mr. Richmond presented his fiancée with a check for \$1,000 with which to purchase her wedding trousseau. They will reside in Tombstone after their return. Miss Shultz is a poor girl. She graduated from the Danville high school.

## DEADLOCK IN THE STRIKE

The Reported Settlement Is Denied by Shaffer.

VERY LITTLE IS EXPECTED.

Wellsville Plant Started with Nonunion Labor—Employees Refrain from Violence, but Bitter Struggle Is Looked For—Miners Out on Strike.

Pittsburg, Pa., July 18.—"There can be no settlement of the strike in New York. The strike can only be settled by representatives of the steel companies and the officials of the Amalgamated Association. One side can do nothing without the other. The officials of the combine may have agreed to settle—and I hope they have—but we will have to be a party to it before any settlement can be made."

"The reports about the strike being settled, coming as they do through brokers, of course lead to the suspicion that they are circulated for stock jobbing purposes."

The foregoing statement was made by President Shaffer of the Amalgamated Association of Iron, Steel and Tin Workers late this afternoon. By way of a broker's wire the report had come to Pittsburg that a settlement had been made in New York. The Amalgamated men do not expect much from the steel combine officials at present. Anything that may lead to a settlement, they think, will have to come from outsiders. The Ohio state board of arbitration has been moving, the members say, since Monday, with no apparent results.

Trust Starts Wellsville Plant.

All eyes were turned to Wellsville, O., where the general manager, P. F. Smith of the American Sheet Steel Company, addressed some men yesterday, requesting them to go to work today. The attempt to start the plant at 3 o'clock was not successful, but enough men were secured by 6 o'clock to operate the two departments. Fewer than fifty hands were at work, all of them being non-union. There was little or no excitement about the place, the strikers keeping away from the mills. Many of them went to Mingo Junction, near by, where they succeeded in closing down the bar mill there of the steel hoop combine. Almost under the same roof is the National Steel company's plant, but it has not been affected.

American Federation to Aid.

One of the principal events in the day's strike was the offer of financial assistance made to the Amalgamated association by the 2,000,000 members of the American Federation of Labor and by the American Window-Glass Workers' association.

Pittsburg, Pa., July 18.—"If," said President T. J. Shaffer, "it is true, as reported, that the manufacturers are willing to allow the Amalgamated Association to organize the non-union plants, then"—and the leader of the ironworkers grew intensely in earnest—"I say the strike is all off."

President T. J. Shaffer of the striking steel workers, today issues a direct challenge to the billion dollar steel trust.

He has put the responsibility squarely up to the steel trust directors, if they have told the truth in declaring that they are willing that their men should have an opportunity to join the union providing no coercion is used, to end the strike.

FIRED INTO CROWD.

One Man Wounded in Labor Trouble at San Francisco.

San Francisco, July 18.—Ill feeling between strikers and nonunion men resulted in a shooting affray at the corner of 1st and Harris streets, F. A. Pagendarn and Fred M. Cliff, employees of

the Dundon Iron works, discharged their revolvers into a crowd of strikers, one of the bullets lodging in the fleshy part of William Dunn's leg. The shooting was provoked by an assault committed by a number of strikers on Pagendarn and Cliff, who were on their way home from work and were followed by strikers, who jeered at them and pelted them with stones.

Threatening cries were made when Cliff, who is an ex-soldier, drew his revolver and called on Pagendarn to do the same. They then called on the strikers to disperse. The reply was a shower of stones. The two workingmen then fired their revolvers into the air. As this did not stop the throwing of stones, they shot into the crowd. The only man hit was William Dunn, whose wound is not dangerous.

San Francisco is to be made the strike center of the United States, so far as the ironworkers are concerned. A statement made by Thomas L. Wilson, fourth vice president of the International Association of Machinists, says:

"We have the assurance of the international grand lodge that the funds will be forthcoming for a finish fight in San Francisco. Eighty-five per cent of the men out on strike in the east have been granted their demands and 20 per cent of the men have returned to work at the old schedule. It is our expectation that we will call the latter out within a year and have then on an equality with the others."

ENGLAND WATCHES THE STRIKE.

Feeling Is General That the Great Combines Are on Trial.

New York, July 18.—The steel strike in America is attracting much attention in England generally, and while long articles are being printed in the newspapers on the subject no comment is made in the editorial columns, according to the London correspondent of the Tribune. John Burns has been less reticent, for he forecasts an American Armageddon, with the revival of the old anti-slavery feeling, and the transformation of trusts into state organizations by the political power of hordes of workmen.

Financiers watch the quotations from Wall street and are unmoved by socialistic tirades. Combinations are felt to be on trial in America, and if they survive the great conflict with organized labor concentration of capital will be promoted in England.

Municipal Laborers Win.

Rochester, N. Y., July 18.—After nearly nine weeks' idleness the striking laborers engaged in municipal contract work resumed work this morning. Nine bosses signed the agreement, only two of the contractors remaining firm in their declarations not to grant the men their demands.

The men are granted 20 cents an hour for an eight hour day and time and a half for overtime and double time on holidays.

Sixty-Five Thousand Are Idle.

Wilkesbarre, Pa., July 18.—The close of the second day of the stationary firemen's strike finds fully 65,000 miners idle in the anthracite coal region. If the strike extends to the Hazleton, Schuylkill and Shamokin regions, 180,000 men may be idle before long. The tie-up in this region is complete and the strikers are much encouraged.

OIL CLOTH IN A TRUST.

A \$10,000,000 Concern Swallows Up Independent Mills.

New York, July 18.—A big combine in the oil cloth industry was put through yesterday with the perfecting of the organization of the Standard Table Oil Cloth Company. All save three small plants have been acquired by the new company. The capitalization is \$10,000,000.

The plants in the deal are the Western Linoleum Company of Akron, Ohio; the Ohio Oilcloth Company of Youngstown, Ohio; the Keystone Oilcloth Company of Morristown, Pa.; Atha & Hughes of Newark, N. J.; the Goodlatte Oilcloth Company of Passaic, N. J.; Joseph Wild & Co. of Astoria, L. I., and A. F. Buchanan & Sons of Buchanan, N. Y.

The officers are: Henry M. Carlick, president; G. M. McKelvey, first vice president; George N. Hughes, second vice president; Alfred Hunsicker, secretary, and F. H. Schmidt, treasurer.

Letter 19 Years Due.

Altoona, Pa., July 18.—August Bleinert, a native of Germany, has just received a letter that was mailed in Farsbruch, Germany, nineteen years ago by his sweetheart, who is now his wife. Bleinert in 1822, was engaged in the general consular service for Germany in South Africa. He left Port Algo, Brazil, and the letter followed him from place to place, going back to Germany several times. Meanwhile Mr. Bleinert went home and married the girl. She has often told him of the letter.

Chicago Cutting Expenses.

Chicago, July 18.—A 20 per cent cut in all city departments—that is what Mayor Harrison has ordered. That means a retrenchment of \$500,000 on the unexpended appropriations estimated at \$2,500,000. Conditions are such that the cut should have been 40 per cent. That would have meant, however, a closing up of the city hall. As it is the city will be most seriously crippled.

Heartburn.

When the quantity of food taken is too large or the quality too rich, heartburn is likely to follow, and especially so if the constitution has been weakened by constipation. Eat slowly and not too freely or easily

digested food. Masticate the food thoroughly. Let six hours elapse between meals and when you feel a fullness and weight in the region of the stomach after eating, indicating that you have eaten too much, take one of Chamberlain's Stomach and Liver Tablets and the heartburn may be avoided. For sale by King's pharmacy and People's drug store.

Enriched by Death.

New York, July 18.—Colonel Thomas E. Sloan, major of the Old Guard, who died during a storm while boating off South Norwalk, Conn., left a life insurance policy of \$200,000. The beneficiary is said to be Mrs. E. M. B. Alger, his fiancée, who was with the colonel at the time of his death. Life insurance underwriters, it is alleged, are investigating the death of Colonel Sloan, which they declare was mysterious.

Tramp Kills Farmer's Wife.

Canton, Ill., July 18.—When G. W. Lane, a wealthy farmer, living near this city, returned to his home it was to find the dead body of his wife, with evidences of strangulation. The crime is believed to have been committed by a tramp for the purpose of robbery, but upon finding that he had killed the woman in his efforts to force her to give him money, he hastily left the house without taking anything with him. A determined effort is being made to apprehend the murderer.

Put Ban on Immoral Youth.

Rockford, Ill., July 18.—Young men who smoke cigarettes, visit the races and indulge in beer or other intoxicants will not get a fair face from the girls of this town any more. An organization has been formed here for the purpose of socially boycotting all young men who do not behave themselves. The boys who are "good," on the other hand, will be everywhere welcomed by the women and their daughters.

Lead of 13 Kills Companion.

Atlanta, Ga., July 18.—Eddie Dickson, thirteen years old, drove a knife blade into the heart of Arthur Tucker, fifteen years old, causing instant death. He then coolly walked away. Dickson was arrested, but refused to make a statement. He is the youngest person ever arrested in Atlanta for murder.

Burn a Mexican's Body.

El Paso, Texas, July 18.—An American train crew on the Mexican Central railroad has just reached this city, having fled from the republic to the north. In consequence of accidentally running over and killing a Mexican, and throwing his body in the firebox of the locomotive in hopes of concealing his death.

Milwaukee's Large Birthrate.

The birth rate of Milwaukee exceeds by nearly 20 per cent that of any other American city of equal size. While in Detroit, which has practically the same population, the records show only 11.97 births per annum to each 1,000 people, the rate in Milwaukee is 26.28 per thousand.

Dimensions of Rain Drops.

A painstaking meteorologist has succeeded in measuring the dimensions of rain drops. The largest, he states, are one-sixth of an inch in diameter, and the smallest 1-500th.

When you want a modern, up-to-date physic, try Chamberlain's Stomach and Liver Tablets. They are easy to take and pleasant in effect. Price, 25 cents. Samples free at King's pharmacy and People's drug store.

Less Than Half Rates to St. Paul, Minneapolis and Duluth, Minn., Via C. M. & St. P. Ry.

Aug. 1st to 10th, and Sept. 1st to 10th; good to return until Oct. 31st. For rates, time of trains, etc., call at passenger station.

JAPANESE WRITER IS MARRIED.

Miss Watanna, Who Wins Fame by Her Pen, Has Interesting Career.

New York, July 18.—Miss Onoto Watanna, the young Japanese girl whose short stories and other writings have attracted much attention, was married this afternoon in the "Little Church Around the Corner" to C. A. Babcock, a nephew of the late pastor of the Brick Presbyterian Church. Miss Watanna has just completed a novel which will be brought out in the fall by Harper's. She has already had published several long novels and a number of short stories. All of her novels deal with the land in which she was born. Miss Watanna's real name is Winifred Eaton. Her father was an officer in the English army when he married a full-blooded Japanese lady. When the now successful author began writing she chose as her nom de plume the Japanese translation of her name.

rites to be repeated.

Widow Cannot Be at Funeral and Record of It Is Kept.

Boston, Mass., July 18.—The funeral of the late Edward P. McClintock, a well-known resident of the Dorchester district, was held at the family residence. Mrs. McClintock, wife of the deceased, became so ill a few days ago that it was deemed advisable to remove her from the sorrowful surroundings, and she was not present at the services. In order that she may know at some future time of the final offices of love and respect paid her husband, a verbatim report of the minister's words was taken by a stenographer, while a photographer made a snapshot view of the floral tributes.

Serious Rioting in Spain.

Saragossa, Spain, July 18.—General Cervera, a Carlist, was killed and fifty other persons were wounded in encounters today between Catholics and free thinkers in Saragossa. The offices of the Noticiero, a Catholic newspaper, were wrecked.

## Symbols of Success

A vacant chair and a portrait on the wall—strange symbols of success! Yet, in many a home these are the symbols of the success of the man who did not find time to care for his health, or neglected the increasing warnings of disease which Nature gave him.

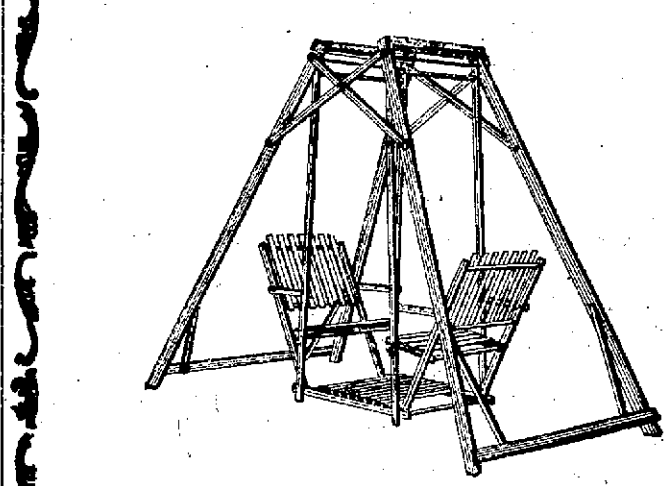

When the stomach is "weak" and food is imperfectly digested and assimilated, it is only a question of time until the break-down comes. The stomach is the very center of vital power and must be kept in health if sickness is to be avoided. Doctor Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition. It increases the supply of pure, rich blood, and gives the body strength to withstand the strain put upon it by the struggle for success.

"I was a sufferer from what the doctors called indigestion, but after trying several eminent physicians failed to get a cure," writes Mr. Frank Mericle, of Independence, Jackson Co., Mo., Box 473. "Some of my symptoms were soreness in pit of stomach, fullness, tired feeling, constipation, sometimes soreness would extend to bowels. Some one recommended me to take Dr. Pierce's Golden Medical Discovery, which I did, and after taking only a few bottles of 'Discovery' and your 'Pleasant Pellets' can say I derived more benefit from them than any other medicine I ever tried. I began to gain flesh from the start. Have recommended it to others and will continue to do so."

The sluggish liver made active, by Dr. Pierce's Pleasant Pellets.

## THE EXILES.

Mr. and Mrs. Daniel Holden were in the waiting room at the depot.

"Morning, Mrs. Robinson," said Mr. Holden, taking off his hat to the judge's wife, who had just entered the waiting room, bringing with her a welcome breath of fresh air. She was going to the city for a day's shopping.

"Good morning," she said briskly, shaking hands with both husband and wife, grasping Mrs. Holden's limp fingers in a way that brought the color to her cheeks. "I've brought you a few flowers, Mrs. Holden. I hope they won't be in your way, with all the things you have to carry. But I knew how fond you were of them."

She laid a goodly bunch of hot-house carnations in the other's lap.

Mrs. Holden expressed her thanks a trifle stiffly, but her husband cried in the heartiest tones:

"Now, that's what I call kind! But Mrs. Robinson allows was a great hand to think of her neighbors. Oh, we shall miss you very, very much!"

Mrs. Holden smiled perfunctorily. "But I hope you'll change your mind before long and come back."

"Oh, no, no!" cried the little woman, with a perceptible shudder. "We shan't never come back, Dan! and me—leastwise without we should decide to come back to be buried."

"Oh, I can't have you talk that way, you know!" cried the persistently cheerful Mrs. Robinson. "Of course you feel blue this morning. Oh, here's the train! You must let us hear from you, you know. Goodbye. Good luck to you both!" And Mrs. Robinson was off.

She joined a young girl whom she had left in order to speak with the Holdens, and the two in a leisurely fashion got aboard the solitary parlor car.

"My dear," said Mrs. Robinson reflectively as she settled herself in her chair, "that is a rural tragedy."

"What do you mean?"

"I mean what I say. I did all I could. I talked and talked, but no one would listen to me."

"But what did their neighbors do to them?"

"What did they not do? You have heard a bit about our last year's minister, I expect. He was an experiment and a strikingly unsuccessful one. The younger members of the congregation insisted on having some one progressive and up to date. They mistook Mr. Siddons' loud dress, loud manners and louder sermons for the thing they were in search of. They found out their error; I am happy to say, and the Siddons tribe have sought more congenial hunting grounds."

"When the Siddons first came, they were received by Elder Holden, and the six little Siddons overran his neat establishment and trampled down the flowerbeds unrebuked for a matter of three or four weeks. When they were settled at last in the parsonage, daily intercourse was still kept up. Mrs. Siddons was disposed to be very friendly toward Mrs. Holden, who could hardly be expected to make fine distinctions. A minister's wife was a minister's wife to her, to be revered as such. The poor soul was obviously flattered by the notice taken of her."

"Before long the good people began to observe that Mrs. Siddons was strangely, uncannily familiar with the skeletons in their several closets—old skeletons that had been buried 20, 30, 40 years. She knew all about the poor girl who went wrong and broke her father's and mother's hearts 35 years ago, and the marital unfaithfulness that was punished up and forgiven a quarter of a century back, and the dishonesty of a trusted public servant who was 'let off easy' and has sat for ten years by his grandson's hearth, a helpless paralytic. How did she learn these things? There must be a traitor in the camp, a scandalmonger in the congregation. People were very indignant and asked themselves who it could be. Suspicion fell on poor Mrs. Holden. There was no real evidence against her. It was merely their firm opinion that it must be she. No one else was so intimate with the minister's wife, and no one else had so few friends to take her part when accused. They called her up before the elders—that sensitive, shrinking little woman! She felt the disgrace of it as you or I would feel the sting of the lash. Her voice was so choked with tears that they could hardly understand what she said. They thought she was shilly-shallying. They believed her guilty. They had no other scapegoat. So they passed a vote of censure on their erring sister."

"The poor little soul was utterly crushed. She drooped and grew pale and shut herself up and avoided people's eyes. Her husband resigned his eldership and hovered helplessly over her. Nobody went near them or had anything to do with them. People thought the way Amanda Holden was acting was a mean spirited acknowledgment of guilt."

"At last her husband saw it was breaking her heart and decided to take her away. They are going out west. Imagine those two doves out west! Am I wrong to call it a tragedy?"

"I am glad you brought her those carnations."—Harper's Bazar.

### Pipes Frozen by Warm Spells.

It is a curious fact that water pipes under ground will often freeze during the warm spell that follows a cold snap. The explanation made for this interesting phenomenon is that after a cold wave a large quantity of heat is taken from the ground in the work of changing the frozen moisture into water, and thus, on the principle of the ice cream freezer, the pipe is chilled, enough heat being taken from it to freeze it.

### IRISH NAMES IN FRANCE.

O'Quin d'Etchepare Is an Example of an Odd One.

France with its MacMahons, O'Nells, O'Connors and Nugents, possesses many Irish names. The Boulanger movement introduced to us Count Dillon, in whose gardens the Floquet duel was fought. Most of the Franco-Irish, though two hundred years may have passed since their ancestors left our shores, have preserved a great affection for Ireland, and each St. Patrick's day sees a certain number of them united to celebrate the feast of Ireland's patron saint. I had the pleasure of being present at one of these "dinners de St. Patrice," under the presidency of the Vicomte O'Neill de Tyrone, a charming nobleman, who claims descent from Owen Roe O'Neill. Among Irish names in France I may mention Crebillon de Ballyhigue, MacGuckin de Slane, Mahon de Monaghan, O'Quin d'Etchepare (formerly mayor of Pau), Harry de Pierrebours, Harden-Hickey (who shows his Irish origin by editing the principal comic paper in Paris, the "Triboulet"). There are a few names with the prefix "O," and it is hard to know how they came by it. There is a Baron O'Tard de la Grange, and a Comtesse O'Pole, and I have also seen in a list of students O'Diette and O'Lanyer. These are to be distinguished, of course, from such noms de guerre as O'Monroy, O'Diu, O'Squarr, etc.—The Gentleman's Magazine.

### Chips from Campaigns.

Senator Benton, it is said, once addressed a public meeting as follows: "Ladies and gentlemen, there are the sages of the past and the sages of the future. I stand before you tonight the connecting link between the sages of the past and the sages of the future, and soon I, too, will be numbered with the sages of the past." But Col. Crisp's great speech at a local democratic convention beat that all to pieces. The delegates were wild with turmoil. Col. Crisp shouted: "Silence, you Kansas City jackals, and hear the Hon. roar!"

### Mrs. Mary Sabin White Dead.

Columbus, Ohio, July 18.—Mrs. Mary Sabin White, aged 79, wife of Dr. Emerson E. White, the author of "White's Arithmetic" and other educational works, is dead at her home here. Death was caused by paralysis. Mrs. White was the mother of Gov. A. B. White of West Virginia, and W. E. White, chief deputy collector of internal revenue at Parkersburg, W. Va.

### Dies for Love of Wife.

La Porte, Ind., July 18.—C. W. Kline, who took rat poison because he failed to bring about a reconciliation with his wife, died in convulsions. A note was found addressed to his wife, declaring that he had taken his life for her sake. Mrs. Kline is still critically ill from the effects of poison taken with suicidal intent the day following her husband's rash act.

### Secretary Root Visits Fort.

Fort Leavenworth, Kan., July 18.—Colonel Jesse M. Lea, post commander, met Secretary Root and party at the station here with a troop of the Fourth cavalry. The entire garrison turned out and presented arms. As the secretary entered the post grounds a salute of seventeen guns was fired.

### Shot from a Passing Boat.

Detroit, Mich., July 18.—W. S. Marsh, a passenger on the steamer F. E. Kirby, was struck in the neck by a bullet fired from the deck of the steamer Grecian, which was passing the Kirby in the Detroit river. A fellow-passenger dug out the bullet, and Marsh will get along all right.

### Allies to Quit Pekin Aug. 14.

Pekin, July 18.—The fall and final evacuation of Pekin by the allies will take place on Aug. 14, the anniversary of the relief of the legations. On that date the control of the city will be formally transferred to the Chinese in a public function.

### Butterine Men Winners.

Elgin, Ill., July 18.—The case brought by the pure food commission against Keiber Bros. to enforce the butterine law came up yesterday before Justice McDonald and resulted in a verdict for defendants.

A test case will be taken to the supreme court. There have been many similar suits here during the last few years, and in no instance has a conviction been obtained.

### Receiver Is Appointed.

Washington, D. C., July 18.—The Comptroller of the Currency has appointed Dr. A. B. Eastham of Vancouver, Washington, permanent receiver of the insolvent First National Bank of that city. This is the bank the president and cashier of which recently committed suicide.

### McKinley Falls to Start Organ.

Canton, Ohio, July 18.—President McKinley was to have pressed a button last night which would have started an organ at the Epworth League convention at San Francisco. He found he would have to remain up until 10:15 p. m., so he sent a message of greeting instead.

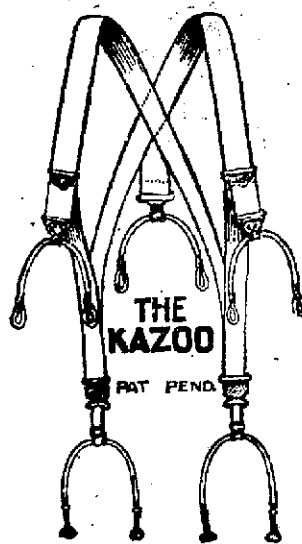

### Y. M. C. A. Secretary Gets 5 Years.

Los Angeles, Cal., July 18.—C. Donald Lowrie, Y. M. C. A. secretary, was yesterday sentenced to five years in San Quentin prison for burglary in the second degree. He will appeal.

### Judge Kellum Dying.

Sycamore, Ill., July 18.—Charles Kellum, circuit judge since 1877, lies very ill at his home, with no hopes for recovery.

# THE KAZOO

## What Is It?

It is the latest and most complete device in boy suspenders and hose supporters combined that has ever been brought to the attention of mothers who desire to avoid the annoyance of their boys' hose coming unfastened or hose supporter giving out continually.

It is made of the very best and strongest material, using rubber cord of 72 strands, which outwears any elastic web that can be produced. Also we use the Cyclone grip for the hose, which avoids any possibility of their coming unfastened or of cutting the hose. It is made adjustable, so you may hold the hose perfectly smooth. The suspender part buttons as does other suspenders, with same 72 strand rubber strand cord for ends which does not lose the elasticity as does the common web suspender, thereby avoiding the annoyance of having the buttons pull off because of the stretch being out of the suspender, as this end holds its elasticity till worn out.

The prices on the Kazoo is only 50 cents and 75 cents, and the fact that they will outwear any other suspender or supporter by great odds, makes them the most economical article ever offered in this line. They are made in sizes from 4 to 14.

Do not economize by allowing your boy to wear common elastic around the limb, as you endanger the health by stopping the circulation and increase the doctor bill.

FOR SALE BY

**T. J. ZIEGLER,**

E. J. SMITH, Manager.

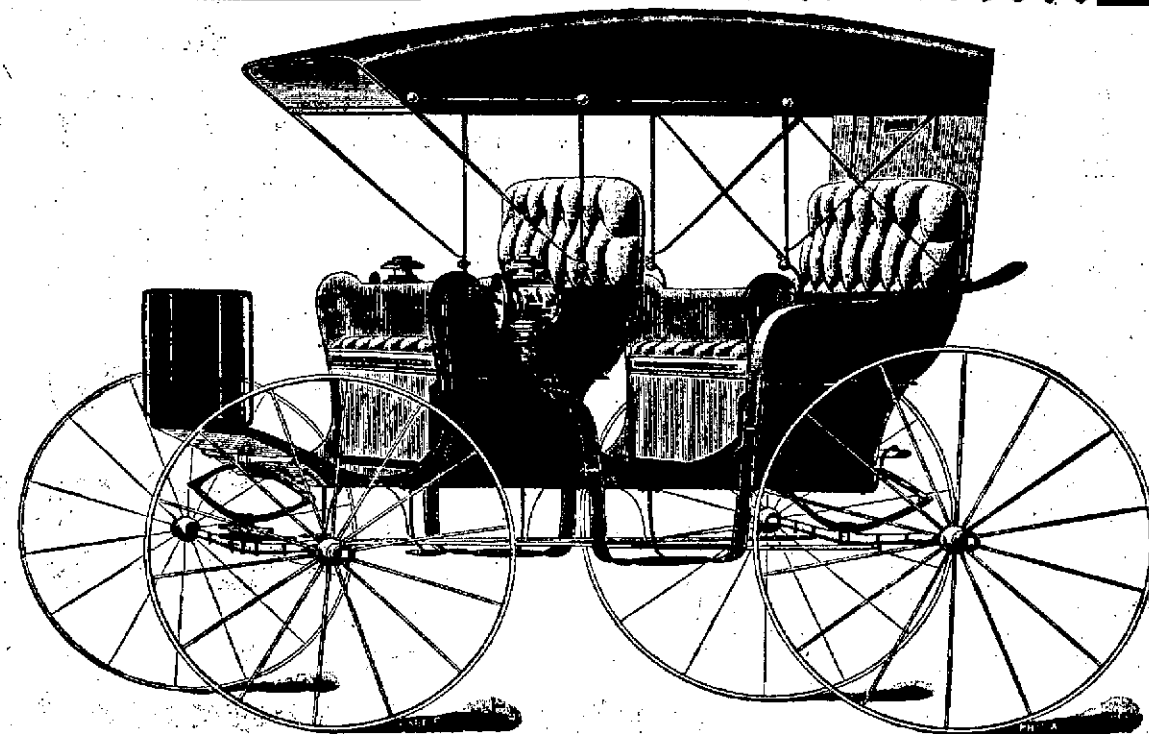

## Fine Appearance. Little Cost....

You will be surprised at the small prices we are asking for stylish equipages all rights to wear and everything else If you

## Buy Vehicles From Us

you won't have to be always spending money for repairs.

**LAMB & EARLASS,**  
Court Street Bridge. Janesville

**WISCONSIN CARRIAGE COMPANY,**

Dealers in Quality and Up-to-date Styles Wholesale and Retail.

## Our Special Shoe Sale

commenced Wednesday will continue during July and the same low prices as advertised that day will prevail.

Ladies' \$2.50, \$3 and \$3.50 Oxfords in tan and black, broken sizes and narrow toes..... **98c**

Our men's shoes at..... **\$1.98** are genuine bargains.
